

## ABOUT THE COLLEGE

Nandha Educational Trust was promoted by Thiru V. Shammugan, chairman cum managing trustee in 1992 with a vision to serve and lead the society by imparting quality value based education as the mission. Nandha Engineering College was started in 2001 and is affiliated to the Anna University. The college is located in a serene atmosphere at a distance of 13 km from Erode. The college has state-of-the-art infrastructural facilities and offers 9 undergraduate, 6 postgraduate programmes in various disciplines of Engineering, Technology and Management with approved Research Centre for PhD programs.

## ABOUT THE DEPARTMENT

Department of Biomedical Engineering was started in 2018 and is blooming out wide spread opportunities, that come and flourish with well-equipped Physiology and Biomedical Instrumentation Laboratories.

We have signed MoUs with many reputed industries, Hospitals and Technical chapters (like IEEE, ICS), University Technology PETRONAS, Malaysia under which our students are undergoing Research Internship Programme every year and Also PALS which paved us the way to couple with HTIC MedTech Incubator, a multidisciplinary R&D facility working on healthcare technologies development.

We are always committed to shape the student as "industry ready" and replacement track records stand tall for us always.

The Department Of Biomedical Engineering and IIC Jointly Organized Entrepreneurship Opportunities In Healthcare, a Self – Driven Activity by IIT Madras – HTIC MedTech Incubator on 23<sup>rd</sup> December 2021 for the Second, Third & Final year Biomedical Engineering students. The Program showcased India’s Healthcare Challenges and necessity of context specific innovations. Being conceived to inspire the best talent to be entrepreneurs by supporting them with mentorship, access to office and guidance, program provides tremendous opportunities for innovative entrepreneurs to expand their networks and get critical feedback on their ventures in order to promote their entrepreneurial career goals and aspirations.

With the context of India’s Healthcare Challenges, successful technology translations were shown as examples to kindle students' innovations and creativity. Idea generation programs to engage with enthusiasts and create a pipeline for innovative solutions were discussed. Experiences shared by experts in the field shown to generate interest, create awareness and impact knowledge. Program focused on translation of innovative idea to a prototype, also innovative solutions relevant to the local and global problems. To attract a large number of youth with problem solving zeal and abilities, new technology/knowledge/innovation based start-ups examples were demonstrated. Also access to IITM – HTIC ecosystem, System Highlights, Project objectives, Eligibility Criteria, Startups supported, Terms & Conditions, Partnership & Linkages were discussed by Ms. Abhinaya. R, Program Manager.

## India's Healthcare Challenges

**Indian Healthcare Context**

- Large disease burden with major shift to non-communicable and lifestyle diseases
- Less than one doctor per 1000 people
- Less than 30% doctors serving 70% of population
- 30+ million people pushed into poverty due to health payments in India

**Context Specific Innovations Needed**

Affordable      Accessible Geography, skill      Scalable

MTI IITM is presenting

## Healthcare Technology Innovation Centre

Established 2012

- 30+ collaborators
- 80+ engineers, researchers, students, faculty
- 4 technologies in market
- 5 technology platforms and products in pipeline

## Innovation Ecosystem

- 35 projects executed
- 45 Crore funding (Industry - Rs. 24 Crore, Govt. - Rs. 12 Crore)
- 140+ publications in leading global conferences and journals
- 12 patents filed
- 150+ start-ups are supported by experienced doctors, researchers, engineers, serial entrepreneurs, students, and IITM faculty

## ABOUT THE COLLEGE

Nandha Educational Trust was promoted by Thiru V.Shanmugan, chairman cum managing trustee in 1992 with a vision to serve and lead the society by imparting quality value based education as the mission. Nandha Engineering College was started in 2001 and is affiliated to the Anna University. The college is located in a serene atmosphere at a distance of 13 km from Erode. The college has state-of-the-art infrastructural facilities and offers 9 undergraduate, 6 postgraduate programmes in various disciplines of Engineering, Technology and Management with approved Research Centre for PhD programs.

## ABOUT THE DEPARTMENT

Department of Biomedical Engineering was started in 2018 and is blooming out with wide spread opportunities, that come and flourish with well-equipped Human Physiology and Biomedical Instrumentation Laboratories.

We have signed MoUs with many reputed industries, Hospitals and Technical chapters (like IEEE, ICS), University Technology PETRONAS, Malaysia under which our students are undergoing Research Internship Programme every year and Also PALS which paved us the way to couple with HTIC MedTech Incubator, a multidisciplinary R&D facility working on healthcare technologies development.

We are always committed to shape the student as "industry ready" and replacement track records stand tall for us always.

### Training Course on Radiation Safety (TCRS-4) No. AFR/RSO/RSO DR/RY/18/2017

**RSO Certification for Service Engineers/SA Service providers in Diagnostic Radiology (RSO-CR)**

**Introduction:**  
Diagnostic radiology accounts for the largest fraction of human exposure to ionizing radiation from man-made sources. A large number of diagnostic radiology facilities are operational over the country, which are highly diverse in culture, city spread, for its applications and associated hazards involved. The slightly varying the approval of RSO are required to be consistent with the likely hazard potential associated with the practice.

The main objective of the use of X-rays in diagnostic radiology is to obtain optimum diagnostic information with minimum exposure to the patient and the occupational workers. In order to achieve this objective periodic quality assurance tests of diagnostic X-ray equipment and proper training to radiological staff and service engineers are necessary. Therefore, a radiation safety module is prepared for personnel involved in servicing, maintenance, quality assurance and operation of medical X-ray equipment for enhancing their knowledge about radiation safety and quality assurance in diagnostic radiology. This training module is for RSO certification for service engineers of manufacturers/suppliers and QA service providers of medical X-ray equipment.

**For registration category X-ray facilities:** (i.e. general X-ray machine such as radiography, fluoroscopy, interventional, dental, BSE), the appropriate Registration category technology is assigned to discharge the duties and responsibilities of RSO. For technical Practitioner/SA, responsible with these years experience with appropriate knowledge of radiation safety, are directly considered for Radiological Safety Officer.

**Eligibility Criteria:**  
(i) Degree/Diploma in electrical/electronics/mechanical/mechanical engineering or in an equivalent discipline from a recognized University/institution  
or  
(ii) Basic degree in Science with physics as one of the subject from a recognized University/ institution.

**Duration:** 7 (Seven) working days  
**Examination:**  
The examination shall consist of:  
I. A written paper of 80 marks (40 marks objective + 40 marks descriptive)  
II. Viva-voce of 20 marks

**Total No. Of Students attended: 106**
