## POST EVENT REPORT FOR ONE CREDIT COURSE

Title of the program : One Credit Course  
Name of the Industry : TVS Training and Services, Chennai  
Name of the Resource persons : Mr. K. Sethuraman & Mr. R.K. Gopalakrishnan

Department of Mechanical Engineering, Nandha Engineering College had organized one credit course on "Geometric Dimensioning and Tolerancing" on 08.05.2023 and 09.05.2023. The resource person for the course were Mr. K. Sethuraman and Mr. R.K. Gopalakrishnan, TVS Training and Services, Chennai

The main objective of this one credit course is to

1. To learn the preparation of 2D drawings
2. To acquire the knowledge about dimensioning of 2D part drawings
3. To know about the measurement of dimensions by using measuring instruments like vernier caliper, micrometer etc.,
4. To learn the assembly of different part drawings

A total of 103 students were participated in one credit course to expand their knowledge.

## POST EVENT REPORT

<b>Department</b>	Biomedical Engineering	
<b>Name of the event</b>	One Credit Course	
<b>Title of the Event</b>	LABVIEW FOR BIOMEDICAL APPLICATIONS	
<b>Date &amp; Time</b>	11.03.2023 & 12.03.2023	09.00am to 4.30pm
<b>Venue</b>	Offline mode	
<b>Name of the Chief Guest</b>	Mr. Boopathi Sakthivel	
<b>Designation of the Chief Guest</b>	CEO & founder Prashan Medical Technologies	
<b>Number of Participants</b>	32	
<b>Outcome</b>	<p>Biomedical signal acquisition has greatly advanced over the years, using many different technologies. E series multifunction data acquisition cards are used for the acquisition of biomedical signals. With the increasing performance of the personal computer, computer based signal processing systems are becoming an efficient and cost-effective way of acquiring and analyzing these signals. The advanced analysis techniques available on the computer are becoming invaluable to the practicing physician. The diagnostic decision will be more accurate. Peak detection in electrocardiogram (ECG) is one of the solved problems using LabVIEW and filtering biomedical signals in different ways is a challenge that has to be solved.</p>	
<b>Feedback</b>	Expand their knowledge covering the basic principles of LABVIEW and got idea about scope in Industry.

## POST EVENT REPORT

<b>Department</b>	Biomedical Engineering	
<b>Name of the event</b>	Industrial Visit	
<b>Title of the Event</b>	Industrial Visit to Medingers Health Care Solutions.	
<b>Date &amp; Time</b>	13.02.2023	1 day
<b>Venue</b>	Medingers Health Care Solutions ,Erode.	
<b>Name of the Chief Guest</b>	Mr. Muhammadu Sathik Raja	
<b>Designation of the Chief Guest</b>	HR & CR Advisor - Medingers Healthcare Solutions, Erode	
<b>Number of Participants</b>	78	
<b>Outcome</b>	<p>Medingers healthcare solutions is a medical equipment servicing and training institute. The students learned about the application and working of various medical equipment's including CT scan, Boyle's apparatus, BMD machines. Students were split into 6 groups and 3 trainers explained the working of various types of medical imaging systems and continuous flow anesthetic machine.</p> <p>The Visit imparts knowledge on latest medical instruments to students. Students got practical knowledge about the advanced Instruments. Different types of equipment and its functions were explained with visual configuration.</p>	
<b>Feedback</b>	Expand their knowledge covering the basic principles of Medical Instrumentation and got idea about scope in Industry.

## Chief Guest Profile

**Er.Muhammadu Sathik Raja.M.S** , Professor & Head , Dept of Medical Electronics , Also play role as HR & CR Advisor to “**Medingers Healthcare Solution**” (Multinational Company) . He has Completed B.E.(Bio Medical Engineering),M.E (Applied Electronics),. MBA (Hospital Administration). His research area is stress Recognition & Management. He has keen interest in the Medical regulatory & Medical Auditing. He was diagnose the boon of Medical Coding & Medical Scribe & growing employability in healthcare Industry, because of his strong network in both Academic & the Industry Circles, which leads him to offer 100% Placement opportunities & support to the students consequently.

### Experience:

Teaching UG: 13 years; PG: 8 years

Industry : 5 Years

### PMKVY (Prime Minister koushal vikas Yojana)

Successfully Conducted following Course fund received from AICTE

1. Medical Equipment Technician
2. Emergnecy Medical Technician
3. Vision Technician
4. Pharmacy Assistant

Organized Many “ I3P” - Industry Institute Interactions Programs as Gap analysis & Gap filling tool which are industry expect from the fresh Engineers.

## MoU Activity

### Value added Course on "Analysis of Framed Structures using STAAD. Pro"

The Department of Civil Engineering in association with B.T.R. Construction, Bhavanisagar had conducted value added course on "Analysis of Framed Structures using STAAD. Pro" for Third year Civil Engineering Students from 09<sup>th</sup> to 12<sup>th</sup> February 2023 at Nandha Engineering College (Autonomous), Erode. A training activity was arranged under Department Placement training cell. The software skills are highly beneficial to students for their final year projects as well as add to their skill set while seeking job.

The main objective of this workshop is to give an insight to the various application and tools of the STAAD. Pro. So that it will help them to understand better about the analysis of SFD, BMD and drawing preparation for a project using STAAD. Value added course held on 09<sup>th</sup> and 12<sup>th</sup> Feb.2023 in CABD Lab. **Er. R. Udhayashankar**, Managing Director, B.T.R. Construction was the Trainer for the value added course. Dr. E. K. Mohanraj, Head of the Department of Civil Engineering welcomed the Trainer.

STAAD. PRO training plays a vital role in structural development and design for the civil engineers. The main objective of this training is to give the complete knowledge of the software to the student and to make the students expert in this software and ready to take any structure for analysis.

In Introduction module, a brief introduction of the software and the basic tools of the software. In training session, how to define a node, drawing a beam, defining the loads, application of supports to the beam, assigning the load and finally check reaction, SFD, BMD and deflections, about advanced RCC design, detailing of bars of beams and columns and response spectrum analysis.

**Day 1:**

- ⚡ Introduction to software and various tools available in the software, unit system, SFD, BMD theory concepts, etc..
- ⚡ Calculation of SFD and BMD for simply supported beam (Manually and Staad Pro.)
- ⚡ Application of floor loads and temperature loads in software
- ⚡ Understanding and application of wind load in software

**Day 2:**

- ⚡ Basics of earthquake engineering and application of seismic coefficient method
- ⚡ Application of response spectrum method in software
- ⚡ Application of moving load in software
- ⚡ How to use STAAD Editor in software, How to make auto and manual load combinations in software, truss validation problem

**Day 3:**

- ⚡ Understanding of G+3 Special moment resisting frame structure
- ⚡ Modelling of G+3 Special moment resisting frame structure
- ⚡ Application of loads and analysis of G+3 Special moment resisting frame structure
- ⚡ Design of G+3 Special moment resisting frame structure

**Day 4:**

- ⚡ Modelling and analysis of rectangular and circular water tank in software
- ⚡ Design of G+3 Special moment resisting frame structure
- ⚡ Understanding post processing commands in software

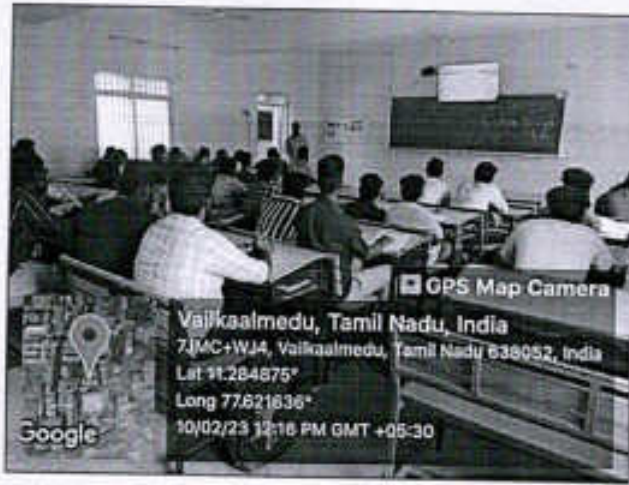

The Workshop was great successfully completed by the Third year Civil Engineering students. Feedbacks were taken at the end of workshop & good positive feedback was given by the participants about the workshop and the trainer. The workshop had given them the complete idea about the management of tool and Projects in AutoCAD.

Title of the Event	"Why Management Course is gaining Importance in Present Scenario?"	
Date & Time	07.02.2023	02.30 PM
Venue	Offline mode	
Name of the Chief Guest	Mr. Mohan Govindasamy	
Designation of the Chief Guest	CEO - NEXGEN	
Number of Participants	100	
Outcome	The Students gained awareness about the importance of management studies in present scenario and gaining of practical experience in any field. The HR handling is an art and it will be handled through experience gaining alone. Due to technology development, the management field is growing.	
Feedback	The session was an eye-opening for the first year students and also an importance stressing programme for the second year students.

## POST EVENT REPORT

Department	Biomedical Engineering	
Name of the event	One Credit Course	
Title of the Event	MEDICAL EQUIPMENT AND ITS CALIBRATION	
Date & Time	03.12.2022 & 04.12.2022	10.00 AM
Venue	Offline mode	
Name of the Chief Guest	Mr. Boopathi Sakthivel	
Designation of the Chief Guest	CEO & founder, Prashan Medical Technologies	
Number of Participants	53	
Outcome	<p>Biomedical instrumentation and engineering is the application of knowledge and technologies to solve problems related to living biological systems. It involves diagnosis, treatment and prevention of disease in human. As the medical field is emerging, the area of Biomedical Engineering is an expanding field. Biomedical Instrumentation helps physicians to diagnose the problem and provide treatment. To measure biological signals and to design a medical instrument, concepts of electronics and measurement techniques are needed.</p> <p>The resource person also explained the mechanisms of all major biomedical instrumentation systems--ECG, EEG, CT scanner, MRI machine, pacemaker, dialysis machine, ultrasound imaging machine.</p>

## POST EVENT REPORT

Department	Biomedical Engineering	
Name of the event	One Credit Course	
Title of the Event	LABVIEW FOR BIOMEDICAL APPLICATIONS	
Date & Time	13.11.2022 & 14.11.2022	10.00 AM
Venue	Offline mode	
Name of the Chief Guest	Mr. Boopathi Sakthivel	
Designation of the Chief Guest	CEO & founder, Prashan Medical Technologies	
Number of Participants	53	
Outcome	<p>Biomedical signal acquisition has greatly advanced over the years, using many different technologies. E series multifunction data acquisition cards are used for the acquisition of biomedical signals. With the increasing performance of the personal computer, computer based signal processing systems are becoming an efficient and cost-effective way of acquiring and analyzing these signals. The advanced analysis techniques available on the computer are becoming invaluable to the practicing physician. The diagnostic decision will be more accurate. Peak detection in electrocardiogram (ECG) is one of the solved problems using LabVIEW and filtering biomedical signals in different ways is a challenge that has to be solved.</p>	
Feedback	Expand their knowledge covering the basic principles of LABVIEW and got idea about scope in Industry.

## DEPARTMENT OF ECE

### Institution of Electronics and Telecommunication Engineers (IETE)

#### Seminar on Basics of Electronics

Seminar on Basics of Electronics was organized on 06.01.2023 from 09.30am to 12.30pm at NEC Conference hall for first year ECE students. Ms.R. Santhiya, Senior Technical Engineer LIVEWIRE Erode, was the resource person. The information about basics of Electronics and its concepts, Electronic component types, their examples and functions were delivered to students. Resistor colour coding and the method to calculate values are also explained. The topic gave an insight to recent Electronic concepts like 4G, 5G, Lithium ion batteries and its replacement by sodium ion batteries.

The students gained comprehensive knowledge on basic and fundamentals about electronics and its applications.

## Invitation

The poster features a dark background with a central image of a tractor. At the top, it reads 'NANDHA ENGINEERING COLLEGE, ERODE.52 (AUTONOMOUS) DEPARTMENT OF AGRICULTURAL ENGINEERING'. To the right is the college's logo and 'NANDHA Since 1992'. The main title is 'SYNECTICS'22 WORKSHOP IOT IN AGRICULTURE'. A circular diagram on the right shows 'Agriculture IOT' at the center, surrounded by icons for 'Smart Farming', 'Precision Farming', 'Data Analytics', 'Automation', and 'Sustainability'. Below this, a box lists event details: 'Event Date: 23.11.2022', 'Event Venue: Field lab', 'Registration Fees: 200/- Rupees', and 'Timing: 9:30 am to 1:30 pm'. Another box provides a 'Description' about gaining knowledge of IOT and its practical application in agriculture. At the bottom right, it lists 'EVENT COORDINATORS: PRAVIN - 6361001715' and 'HARIPRIYA - 9360537107'.

## Workshop on IoT in Agriculture

A one day workshop on IoT usage in agriculture was organized on 24.11.2022 from 9.30 am to 4.30 pm. It was handled by Mr. M. Gowthem Kumar, CEO, Universal Power Supplies. The objective of the training is to establish knowledge about the basics of IoT, Arduino and its usage in agricultural field and to encourage the students to make their own project. In the training, the students were introduced to the basics of IoT, Arduino, functions, time setup and buzzer activation using coding language. The students gained comprehensive knowledge, so that they will be able to participate in various project Expo and carry out their final year academic projects and PBL projects.

## POST EVENT REPORT

Department	Computer Science and Engineering	
Name of the event	Seminar	
Title of the Event	Data Science	
Date & Time	08-11-2022	02.00 PM – 4.00 PM
Venue	Conference hall	
Name of the Chief Guest	Mr. V. Kannan	
Designation of the Chief Guest	Executive Programmer in Sun Software Solutions	
Number of Participants	240	
Outcome	Data science seminar is a great way to build data skills and data career for the students. They provide a great opportunity to hear from industry experts on advancements in the industry, discover best practices and tips from leaders who are successfully deploying solutions in the real world. He give the idea of data science life cycle, data handling, algorithms and concepts to be applied for creating data products.	
Feedback	Good and got idea about scope in students success
