Department of Mechanical Engineering, Nandha Engineering College and Indian Society for Technical Education-Student Chapter jointly organized an industrial seminar on “**Smart Manufacturing & Industry 4.0**” on 30.09.2022 at Nandha Engineering College. The resource person for the program Mr.B.Thennarasu had chaired the session. In his inspirational speech, he shared his experiences in the career guidance for the mechanical engineering students.

The major topics covered

- Smart Manufacturing & Industry 4.0
- Augmented Reality and Virtual Reality

The main objective of this seminar is to

- Provide Knowledge about the topic
- Provide unique lifetime skill
- Explore topic in more depth

Total Number of Participant : **110**

SMART MANUFACTURING & INDUSTRY 4.0

POST EVENT REPORT FOR SEMINARS, WORKSHOPS, STTP AND FDP

Title of the program : Project Based Learning – State of the Art in Engineering
Name of the convener : Dr. M. Easwaramoorthy
Name of the coordinator : Dr. N. Senniangiri

Department of Mechanical Engineering, Nandha Engineering College (Autonomous)
had organized "Lecture Meeting on Project Based Learning – State of the Art in Engineering
on 03.02.2023 & Friday

The main objective of this Seminar is

- PBL focuses on applying theoretical knowledge to real-world problems.
- Encourages students to analyze problems, think critically, and make informed decisions.
- PBL promotes teamwork and collaboration, as students often work in groups to tackle multifaceted projects
- Engineering projects often require knowledge from various disciplines.
- The "State of the Art" in engineering PBL involves incorporating the latest teaching methodologies, technologies, and industry practices to enhance the learning experience.

Description [Max 100 words]

Dr.M.Easwaramoorthi, Head of the Department/Mechanical Engineering, Nandha Engineering College had welcomed all the participants of the lecture meeting and introduced the speaker.

Mr. S. Shanmugam has started his lecture and the important points covered are:

Project-based learning (PBL) is an instructional approach designed to give students the opportunity to develop knowledge and skills through engaging projects set around challenges and problems they may face in the real world. Project-based learning is an opportunity for students to critique and revise their approach when they encounter obstacles. As they continue to actively explore a real-world problem, they acquire a deeper knowledge that requires further inquiry. Focuses on a big and open-ended question, challenge, or problem for the student to research and respond to and/or solve. Builds student choice into the process. Provides opportunities for feedback and revision of the plan and the project, just like in real life. Requires students to present their problems, research process, methods, and results, just as scientific research or real-world projects must stand before peer review and constructive criticism. The student's imagination, conception, subject knowledge, creativity, planning about learning, and completing, and when the project is completed and help student to learning and development more. PBL can promote the development of critical thinking skills, problem-solving abilities, and communication skills. It can also provide opportunities for working in groups, finding and evaluating research materials, and life-long learning. Project-

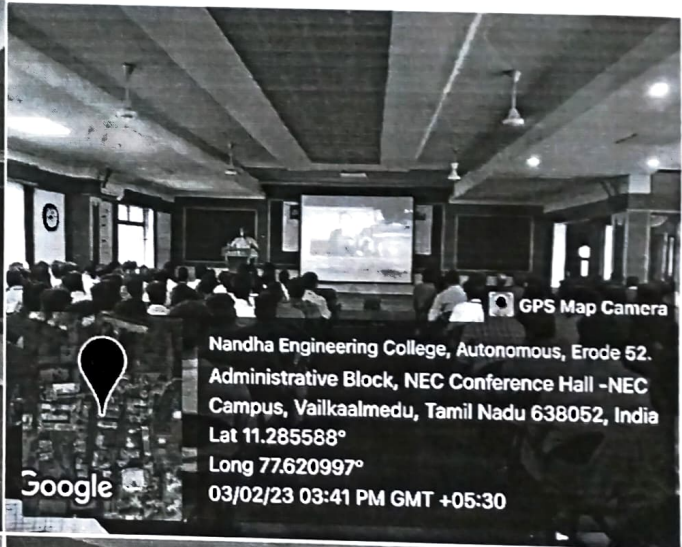

based learning offers students rigorous academic experiences that take them beyond the boundaries of textbooks and lectures.

Dr.M.Easwaramoorthi, Head of the Department/Mechanical Engineering, Nandha Engineering College (Autonomous), thanked the speaker and all the participants and Dr.S.Arumugam, CEO, Nandha Engineering College (Autonomous), & Dr.S.Rengarajan, Principal, Nandha Engineering College (Autonomous) presented the memento to Mr. S.Shanmugam as the token of gratitude.

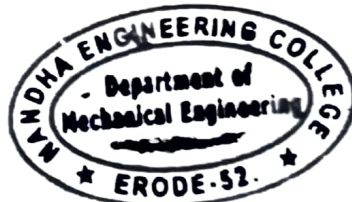

Key take aways:

1. Things gone right:
2. Things for improvement:
3. Simplified delivery
4. Easy understanding
5. Suitable examples

Department of Mechanical Engineering, Nandha Engineering College had organized One Day Industrial Seminar on "Opportunities in core Industries and Techniques of converting knowledge into Competencies " on 10.04.2023 at Placement Auditorium.The resource person for the program was Mr.K.K. Tamilarasu Assistant General Manager, Mr.R.Karthikeyan Officer Industrial Relation and welfare, Sakthi Auto component Limited, Tiruppur, had chaired the session. In his inspirational speech, he shared his experiences in the Career guidance with Faculty members.

The major topics covered

- Opportunities in core Industries
- Techniques of converting knowledge into Competencies

The main objective of this Industrial Seminar is to

- Provide Knowledge about the topic
- Provide unique lifetime skill
- Explore topic in more depth

Total Number of Participant : 108

Department of Mechanical Engineering, Nandha Engineering College (Autonomous) had organized Lecture Meeting on "Trends and Challenges in Automotive Industry with EV Perspective" on 26.04.2023 & Wednesday

The main objective of this Seminar is

- Assessing factors like market demand, consumer preferences, regulatory changes, and technological advancements.
- Analyzing trends helps predict the transformation of the automotive industry as it shifts toward electrification.
- Understanding the challenges associated with building a robust and scalable charging network, stakeholders can work towards effective solutions.
- This includes understanding the potential disruptions to traditional manufacturing, supply chains, business models, and workforce requirements.

Description [Max 100 words]

Dr.M.Easwaramoorthi Head of the Department/Mechanical Engineering, Nandha Engineering College (Autonomous) had welcomed all the participants of the lecture meeting and introduced the speaker.

Mr.M.Manoharan has started his lecture and the important points covered are:

All activities organized by SAEINDIA Southern Section – Erode Division and Department of Mechanical Engineering – Nandha Engineering College (Autonomous),

Electric vehicles (EVs) are becoming an increasingly popular choice for transportation as they offer numerous benefits over traditional gasoline-powered vehicles. **Environmental Perspective:** EVs have zero emissions, which means they do not produce harmful pollutants that are harmful to the environment. This makes them a great choice for those who are concerned about reducing their carbon footprint and protecting the environment.

Economic Perspective: While the initial cost of an electric vehicle may be higher than a gasoline-powered vehicle, the long-term savings can be significant. EVs require less maintenance and have lower fuel costs, which can result in significant cost savings over the life of the vehicle. **Technological Perspective:** EVs are the future of transportation, and as

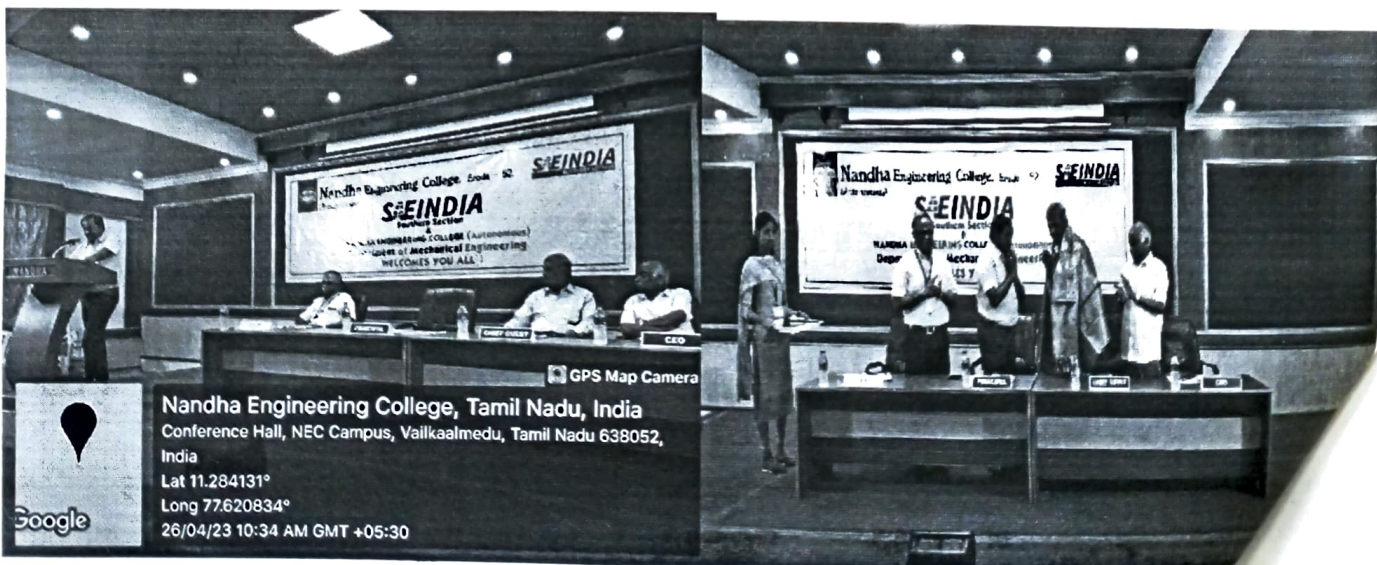

such, they are driving innovation and technological advancements in the automotive industry. From battery technology to charging infrastructure, there are many exciting developments happening in the EV space. **Convenience Perspective:** While range anxiety and charging infrastructure have been concerns for some, EVs offer the convenience of being able to charge at home or at public charging stations. Additionally, EVs have fewer moving parts and require less maintenance, which can make them more convenient to own and operate. Overall, electric vehicles are a promising alternative to traditional gasoline-powered vehicles. While there are still some challenges to overcome, the benefits of electric vehicles make them a compelling option for those looking to reduce their environmental impact, save money on fuel and maintenance costs, and stay at the forefront of automotive technology. Governments around the world are implementing regulations to encourage the transition towards EVs. Students learned about recent trends and importance in automotive industry with Electric Vehicle perspective through SAEINDIA Southern Section lecture meeting.

Mr.S.Shanmugam & Dr.N.Senniagiri, Faculty Adviser / SAE India Collegiate Club of NEC, Nandha Engineering College (Autonomous) thanked the speaker and all the participants and Dr.M.Easwaramoorthi, Professor & Head / Mechanical Engineering, Nandha Engineering College (Autonomous), presented the memento to Mr.M.Manoharan as the token of gratitude.

Key take aways:

1. Things gone right:
2. Things for improvement:
3. Proposed action plan
4. Build the relationships
5. Learn about new ideas and concepts
6. Skills and Knowledge

Feedback:

1. Number of feedbacks received: 130
2. Key observations:
 - Simplified delivery
 - Easy understanding
 - Suitable examples
 - Increasing demand for EVs

- Battery technology advancements
- Consumer education
- Regulatory environment

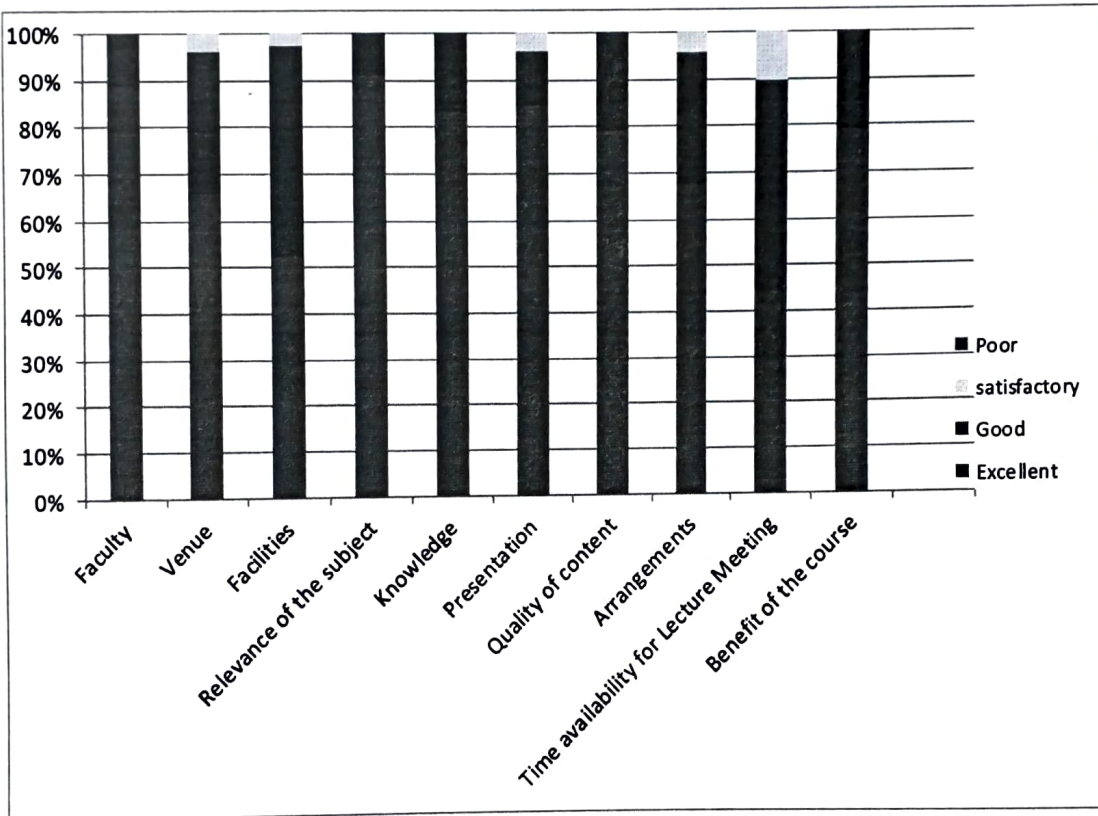

3. Can this topic be considered for other longer workshops/programs [Participants feedback]

Can be considered.

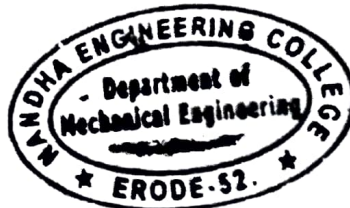

4. Can this Presenter be considered for other longer workshops/programs [Participants feedback]

Can be taken another workshop on the same topic.

ISTE Technical Talk 03.05.2023.

The Department of Mechanical Engineering, Nandha Engineering College, has organized a technical talk on "**Industrial Automation and Concepts Behind Industry 4.0**" jointly with Indian Society for Technical Education-Student Chapter on 03.05.2023. Thiru. V. Shanmugan, Chairman, Sri Nandha Educational Trust, presided over the function. Dr. N. Rengarajan, Principal, Nandha Engineering College, has delivered the principal's address. Thiru. S. Nandhakumar Pradeep, Secretary, Sri Nandha Educational Thrust, Thiru. S. Thirumoorthy, Secretary, Nandha Educational Institutions, Dr. S. Arumugam, Chief Executive Officer, Nandha Educational Institutions, Dr. J. Senthil, Director Nandha Tech Campus have felicitated the gathering. Dr. M. Easwaramoorthi, Professor and Head, delivered the welcome address. The chief guest, Mr. R. Sasikumar, Assistant Manager, Didactic Initiative, Janatics I Pvt Ltd., Coimbatore, addressed the students and explained them the overview of industrial automation, Cobots and concepts behind Industry 4.0.

He also pointed out the advance awareness and skills needed for Mechanical Engineers in the field of automation. The chief guest also thrown light on the areas of Advanced Robotics, Augmented reality, Virtual Reality and Digital Twin where the student has to concentrate and prepare themselves to be employable through enhancing their skills. He also stressed the need of understanding and innovation in these modern technologies so that the students can actively participate in advanced technologies. Students and faculty members had actively participated in the function and interacted with guest.

POST EVENT REPORT FOR SEMINARS, WORKSHOPS, STTP AND FDP

Title of the program : **Workshop on Geometric Dimensioning & Tolerancing**
Name of the convener : Dr. M. Easwaramoorthi
Name of the coordinator : Mr. T. Venkateshan

Department of Mechanical Engineering, Nandha Engineering College had organized Two Day Workshop on "**Geometric Dimensioning & Tolerancing**" on 11.05.2023 to 12.05.2023 in Nandha Engineering College. The resource person for the program **Mr. R.K. Gopalakrishnan** had chaired the session. In his inspirational speech, he stressed the importance of geometric dimensioning and tolerancing skills in industries and companies. He also explained the opportunities related to the students.

The major topics covered

- Geometric Dimensioning & Tolerancing
- Angularity Tolerance .
- Types of Fit.

The main objective of this seminar is to

- Provide Knowledge about the topic
- Provide unique lifetime skill
- Explore topic in more depth

Total Number of Participant : **105**

Career Synopsis:

- I worked in the field of Engineering Design & Changes, Documentation Archives.
- Worked in Plant Maintenance Activities in process industries – Maintenance of Equipments and improved the maintenance metrics – Reduced downtime, improved performance capabilities. Conducted Planned Maintenance activities
- Retrofitting and Reconditioning of Machine Tools- Part drawing, Assembly of machine tools, Installation and commissioning etc.,
- For the last 3 years I have been working as a trainer, developing people to become a solution developer for their organization. Handled programs across different levels of the management & doing productivity & Quality improvement projects.

Handled over 250 Plus programs in the field of Maintenance, Safety, Quality and manufacturing systems.

Customers Handled:

Apollo tyres, Renault Nissan, Ceat Tyres, Royal Enfield, ITC –ICML Limited, MRF Tyres, Brakes India Limited, Siemens Gamesa, Stanley Fasteners, Cooper standards, ABI Showatech India Pvt Limited, Delphi-TVS Technologies, Igarashi Motors, Asahi India Glass Limited, American Axles Manufacturing, Salcomp Manufacturing India Pvt Ltd, Cosmos International, Avalon Technologies Pvt Ltd, Lucas –TVS, Rane Madras, KTV Food Products, Hanon Automotive Systems, Hyundai- Mobis, Sundaram Clayton Limited, B Braun Medical India Pvt Ltd, ESAB India Ltd, Comstar Automotive Technologies, Sundaram Fasteners Limited, Kobelco Construction Equipment India (P) Limited, Del Monte Foods Pvt Limited, Mondelez International, PSA AVTEC Powertrain Pvt. Ltd,

Bosch Global Software technologies- Bangalore & Coimbatore; Mando Automotive india Pvt limited(Steering & casting division), Saint Gobain India Pvt Ltd, Blue star climatech Ltd, Precision Hydraulic Cylinders Inc., Vikram solar power system, Royal Enfield, JCBL marrel Dippers Pvt Ltd, Super Autoforge Pvt Ltd etc.,

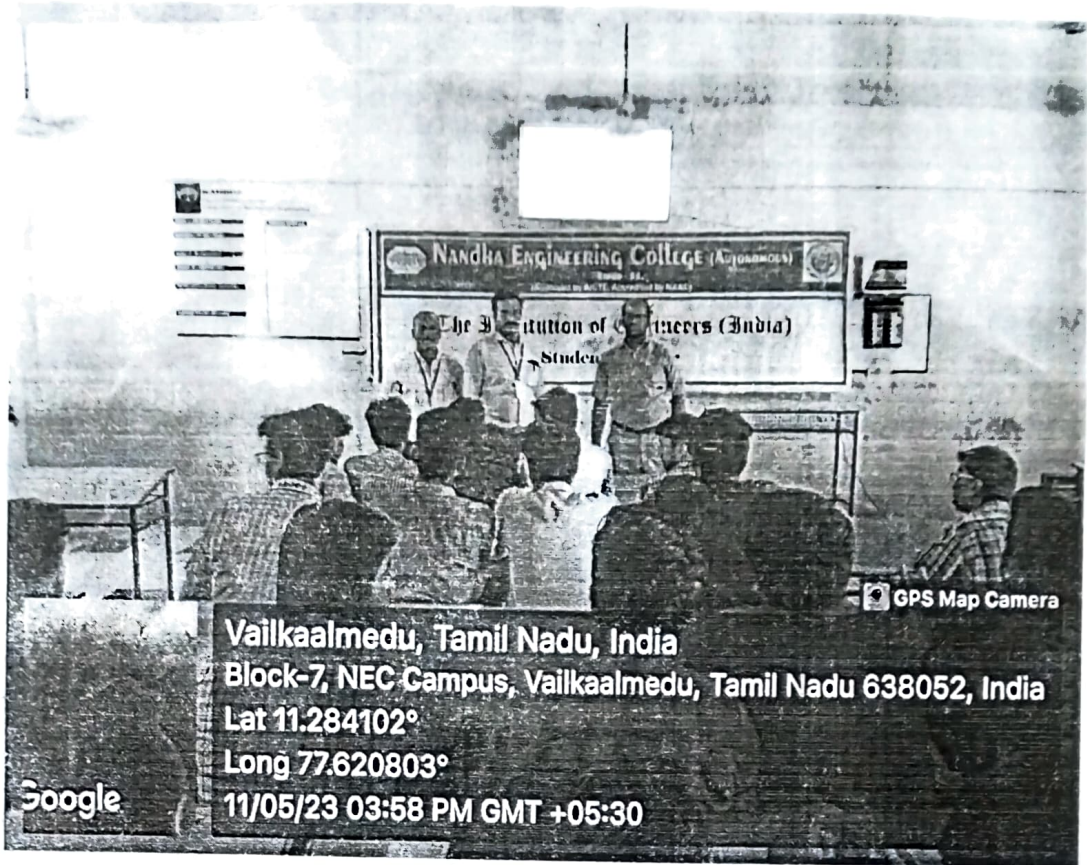

Program Handled:

1. Quality systems ISO 9001, IATF 16949

2. Problem solving techniques – 7QC tools, Management tools, QC story, A3, 8D
3. Automotive core tools – APQP, PPAP, FMEA, MSA, SPC
4. Environment standards – ISO 14001
5. Safety Standards – ISO 45001 ; Industrial Safety
6. Manufacturing systems – Lean manufacturing - 5s, Kaizen, Poka yoke, Value Stream Mapping, Single minute exchange of dies, DWM, WCM, Kanban.
7. TPM – All pillars of TPM as per JIPM
8. Operational & Business excellence - Six sigma
9. Reliability Engineering – Plant Maintenance and Asset Management
10. Customised program- Product, Process and system of customer
11. Basic Engineering Concepts- MHS - Ergonomics, Workshop calculation, Reading Production Drawings, Heat Treatment process, Energy Management, Production planning and control.
12. Metrology – GD & T- Tolerance stackup analysis

CERTIFICATION COMPLETED:

1. Certified internal Auditor -Integrated Management system– SGS India Private Limited, Chennai
ISO 9001: 2015, ISO 14001 :2015 & ISO 45001 : 2018
2. Certified Lead Auditor- IATF 16949 :2016, SGS India Private Limited, Chennai
3. Certified Six Sigma Black Belt – Simplilearn + International Association for Six Sigma Certification
