A Software Development Company that delivers a Solution using RAD Technology...

Thulliam is a Textile Total Solution company with a major focus on Web Application Development for global customers with a proven track record of delivering cost-effective solutions through innovative technologies in various domains.

Vision

To be a recognized and trusted company that delivers quality and cost effective software solution within a minimum time frame using RAD Technology to automate development process.

Mission

Our mission is to enhance the business operation of clients by developing and/or implementing premium IT products and services.

Next Generation Cloud ERP For Textile Industries

TIPS is an ERP solution designed exclusively for the textile industry. Every organization will be familiar with the difficulties faced in day to day operations without the availability of a robust system to track the activities.

It is here that TIPS adds value and makes a difference by seamlessly integrating all the operations with its one-stop-solution. Now, the status of the order can be tracked right from the time it has been placed via the Customer PO, till the time it has been dispatched and delivered.

TIPS is available on the Web and Mobile platforms and can be customized to suit the specific needs. It has a user-friendly interface, an inbuilt workflow engine, predefined user access that controls and alerts which allow one to make informed decisions. In addition, it is compatible and capable of being integrated with other ERPs that one may already be using. This means the user can have it up and run immediately without any disruption to the existing technological setup.

NANDHA

Engineering College, Erode - 52.

(An Autonomous Institution)

Department of CSE & Department of IT

Goal

Centre of Excellence grasps the attention of the students as it provides industrial platform during their academic tenure. A target is essential for each student who aspires to get placed. Setting realistic goals for individual students give them a sense of direction and purpose, and help them improve productivity levels. In-house team suits the companies ready to invest in the recruitment processes, in the development of the team and ready to organize amicable work environment for students.

The Context

Nandha Engineering College is focusing on developing the employability skills of the students. The Centre of Excellence acts as a reference guide for each skill set and then provides training that is adapted to ensure its trainees development according to the companies expectations.

The Centre of Excellence are charged with the mission of reinforcing company's culture and identity. It also finds their calling when companies undergo organizational or strategic changes as they offer an excellent means of communication with employees. It can even help speed up changes implemented by a company's leadership. Our management is generous in providing ample opportunities for the upliftment of the students.

The Practice

Centre of Excellence offers training to the students from II year onwards. Students are selected on the basis of their academic performance and their areas of interest. Students are given training on the ongoing project of the company. Based on the company, the modules are assigne to students either individually or as group. The progress of the modules assigned to the students is being monitored by the company trainers.
